

Adobe InDesign CC Advanced

Overview: This course will teach students to use Adobe InDesign CC to create lengthier interactive documents that need to be accessed across a range of devices. Students will learn InDesign's advanced techniques to enhance the look and functionality of their documents. This means exporting these documents for viewing in a web browser with various features such as buttons, page transitions, movies and audio files, hyperlinks and animation. In creating longer documents, users will be able to include such features as a table of contents, footnotes, cross-references and an index.

Prerequisites: Adobe InDesign CC Introduction course, or equivalent knowledge.

Course Length: One Day

Course Content

Lesson 1: Preparing Documents for Multiple Formats

Build Layout Versions
Link Content

Lesson 2: Managing Advanced Page Elements

Create Repeating Content
Change Text Layouts
Create Transparency
Anchor Objects and Manage a Library

Lesson 3: Managing Styles

Import Styles from Microsoft Word Documents
Manage Styles

Lesson 4: Building Complex Paths

Create Bezier Paths
Create Clipping Paths
Create Compound Paths
